

THE STONED BUD SOCIETY PRESENTS

GREEN  PAPER

STONEDBUDSOCIETY.COM

WHAT ARE WE ABOUT? **THE PROJECT**

Stoned Bud Society is an eclectic community of marijuana & creative arts enthusiasts. Our love of art, music, streetwear & the overall culture, mixed with the enjoyment of fine buds has led us to develop this project.

We felt there was alot to be desired in regards to the many toon style drops and we wanted to put forth a project with an effortful take on it.

We've mapped out this project with an immersive literary lore as we want to go deeper than brand building - we want to build a world full of depth around the characters we create.

Our first drop "Weedheadz", tell a story of prohibition, but with a comic-book esque twist...

WHAT ARE THOSE? **WEEDHEADZ?**

Our Weedheadz characters are from an alternative earth called EARTH-GAN7A. An ancient alien race called The Devouris had set out to destroy earth to conceal the powers of the Marijuana plant from the universe.

The humans only hope was a special strain that fused with whoever smoked it, giving them superhuman powers.

The newly transformed heroes of the universe created a secret society called the Stoned Bud Society.

We've gone deeper into the world lore on our medium and this project will experiment with the world we are building via different mediums.

Using NFT's gives us the tools to really merge technology with the arts and create amazing narrative experiences yet seen. We plan to utilize all of this to tell our story

WHAT WILL WE BUILD? **ROADMAP**

STONED BUD FUSIONS

The Weedheadz are evolvable. In order to evolve, 2 weedheadz must become one. The original weedheadz are taken out of circulation and the owner receives an upgraded mythical weedhead.

We will be airdropping randomly selected Stoned Bud Society members a utility spliff to merge any 2 weedheadz. It's up to the holders if they want to resell these on the secondary.

These mythical weedheadz will have benefits that are exclusive to these holders. This system is integral to our future roadmap plans

STONED BUD TANGIBLES

We want to combine our love for artistic visual and musical culture and create physical products we can be proud of.

We will bring out exclusive cannabis (where legal) & cannabis derived product drops like paraphernalia & high quality streetwear drops to our members (Where legal ofcourse).

Holding a Stoned Bud Society NFT will eventually be able to get your sample packs and random marijuana related product drops for free. Almost like a weed pass 🙄

WHAT WILL WE BUILD? **ROADMAP**

STONED BUD UNIVERSE

We are building a Stoned Bud multiverse based on our deep Stoned Bud Society character lore. We will be introducing our audience to the other inhabitants of the world we are creating. We want to show of Earth-GAN7A in 2D, 3D and other artistic mediums.

Many of this will be exclusive to our holders, as we want to really reward early collectors and our community. Being early pays with us

STONED BUD VR

We love the NFT artistic community and we want to use our position to bring other artists into our lore and create metaverse experiences

We are not building a launchpad or a talent agency or any of that sort of thing. We want to build radical VR exhibitions. This allows us to create new ways to experience peoples art pieces. We want to create the most trippy creative exhibitions ever witnessed in VR to help usher a new era of people pushing new artistic experiences.

Whether it be music, art, or fashion. Watch this space.

OUR SPECIALITIES **TEAM**

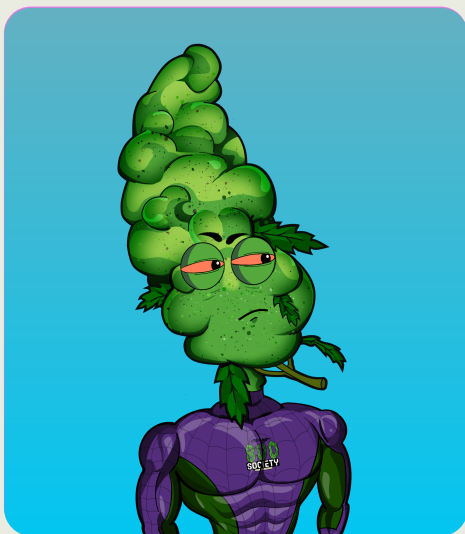

ALFONZOMILLIONS
LEAD DEVELOPER

A seasoned web developer whos worked on projects with boomer companies as Google etc. Rated top 10 ganja chefs in London (trust me bro)

Built memecoinngen.com to help stop people paying 4 digit sums to create a coin contract.

Started off as a music producer, working with some rap legends as a teen. Then ventured accross the creative space from music, sound engineering, design and code.

 @alfonzomillions

ESS ARTIST
GFX / ILLUSTRATOR

A well experienced graphic designer and ganja sourcing expert.

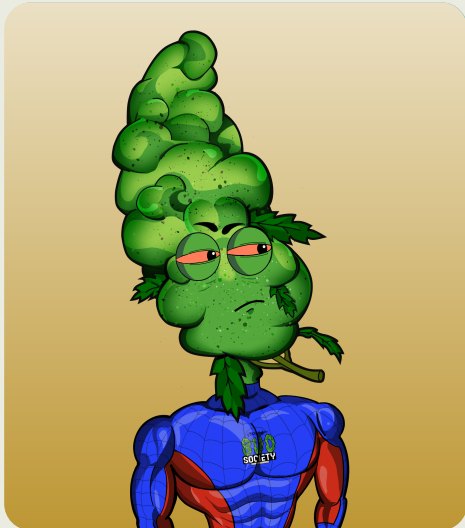

Photoshop wizard and microphone fiend, he started his creative career rapping and drawing cool shit.

As a connosieur of fine street raps, his knowledge of the culture gives his art an edge.

 @smurfuk

OUR SPECIALITIES **TEAM**

JAY ARTIST
ILLUSTRATOR

An avid art fan with a strong sense of taste for expensive designer streetwear.

His background in interior design and 3d architecture gives us the perfect edge to create the most beautiful metaverse experiences you have ever seen.

His knowledge in the drip is impeccable.

THANK YOU ACKNOWLEDGEMENTS

Thanks to Boulard and Melvvv our OG Modz! They really helped things going from the get go.

Shout out to @redacted_j and @levi_cook for helping the Solana community with the work you have done (Fair Launch Protocol & Candy Machine respectively)

Thank you for everyone building on Ethereum and Solana. We strongly believe in a multichain metaverse.
